MOMENTUM 2.0

Invisible Field / Quantum / Dimensions

Milliken®

A perspective view of a futuristic tunnel. The floor is a dark, grid-like surface with lines receding into the distance. The walls are made of reflective, metallic panels that create a series of bright, glowing lines along the top and sides. The ceiling features a series of rectangular light fixtures that also recede into the distance, creating a strong sense of depth and symmetry.

INSPIRED. INSPIRING.

“Nothing happens until something moves” Albert Einstein.

Ideas, preparation, knowledge, and wisdom are all but useless without action, because action is the starting point of all progress. Moving and action builds the fundamental laws of change. The Momentum 2.0 collection explores this beauty of movement. 3 different scaled patterns transitioning from Invisible Field, Quantum to Dimensions... Create your movement on the floor with Momentum 2.0 Collection.
