JOURNEY OF SALT LAKE

Our new collection draws inspiration from one of the most untapped and awe-inspiring landscapes on Earth—the salt lakes of Western China. Crafted with an eye toward nature’s raw and untouched beauty, each design is an exploration of texture, form, and timeless elements.

The Salt Lakes have sculpted these breathtaking surfaces over centuries, giving rise to natural formations that evoke serenity, depth, and a quiet power. This collection translates that pristine environment into modern interior design, offering patterns and textures that elevate any space.

PATTERN EXPLANATION

VISTA

A sweeping view of an expansive landscape, Vista captures the boundless horizons and open spaces of the salt lakes. This design reflects the stillness and vastness of nature, offering a serene, calming presence in any space.

VISTA TRANSITION

Inspired by the natural gradients found in landscapes, Vista Transition moves seamlessly from one color to another, echoing the gentle shifts between salt beds and water. It’s a design that creates flow, guiding the eye through subtle changes in pattern and color.

ECHOES

Represents the lingering impressions of time—how nature’s elements leave their mark on the earth. This design reflects the repetitive, rhythmic patterns of earth and water shaping the salt lake, suggesting an ongoing conversation between the land and the elements.

PATTERN EXPLANATION

FATA MORGANA

A phenomenon of optical illusions, Fata Morgana reflects the mirage-like qualities of the salt lakes, where reality blurs with imagination. This design plays with light and shadow, creating a dreamlike, shifting effect that transforms a space with fluid, ethereal movement.

STRATA

Layers of earth and time inspire Strata. This design evokes the sedimentary layers visible in the salt lakes, where history is revealed through subtle changes in texture and tone. It brings a sense of depth and timeworn beauty into any space.

CRYSTALS

The molecular reflective beauty of salt crystals forms the basis of Crystals. It captures the intricate, geometric structures found in salt formations, turning the natural process of crystallization into a refined, modern texture for interiors.

CARBON OFFSET PROGRAM

SALT LAKE

CARBON OFFSET PROGRAM

Climate change is one of the greatest threats facing humanity.

Today, our carpet, LVT and entryway tiles are carbon neutral

everywhere in the world. We invite you to learn more about

the significant changes we've made, then let's work together to

design a better future.

LEARN MORE

N/XT LIFE™

Milliken leads the Circular Economy charge with 100% recyclable WellBAC™ products.

We incorporate recycled materials, minimize raw material usage, and employ value-engineered constructions to create visually appealing, eco-conscious designs.

REDUCE

- Value engineered constructions
- Less virgin materials and use **100%** ECONYL® recycled yarn
- The recycled content in the raw materials of each carpet is as high as **59%**

REUSE

- Designing for reuse/circularity
- Healthy materials with third party verification
- Cushion backed carpet can extend the life of the product

RECYCLE

- Our carpet product is 100% recyclable
- We recycle carpet tiles with local partners, achieving a 100% diversion rate. The collected tiles are transformed into fiber plastic panels for outdoor flooring and fencing
